## Schedule Mini-Workshop Duality

	Thursday Nov. 6		Friday Nov. 7
		9:00-10:00	<b>T. Kurtz:</b> Filtering and the existence of intertwining relations
10:00-11:00	<b>A. Greven:</b> Duality in population models: From configurations to genealogies	10:00-10:45	<b>A. Sturm:</b> On extensions of Gray's and Siegmund's dualities and applications
11:00-11:45	<b>P. Seidel:</b> A dual process for the spatial Moran model with mutation and...		coffee break
	coffee break	11:15-12:00	<b>M. Esser/S. Probst:</b> Dualities between a moran model with recombination and ...
12:15-13:15	<b>S. Jansen:</b> Duality of Markov processes with respect to a function	12:00-13:00	<b>M. Möhle:</b> Dualities, cones and spectral decomposition arising in mathematical ...
	Lunch break		
14:45-15:45	<b>C. Giardina:</b> Stochastic dualities and Lie algebras		
15:45-16:15	<b>U. Lenz:</b> A Siegmund dual for the line counting in a pruned ancestral ...		
16:15-16:45	<b>J. Swart:</b> Some dualities for a class of one-dimensional cancellative systems		
	Coffee break		
17:15-17:45	<b>F. Hermann:</b> Using duality in the partial duplication random graph		
17:45-18:30	<b>A. Gonzalez/ M. Wilke:</b> The seed-bank coalescent		
18:30	<b>Reception</b>
